**M&K Professionals** Developing Professionals

Since 1992

# Training for Groups of Staff

Buying in training courses for *your* Trust or Hospital

Whether you need to train a handful or hundreds of staff, M&K can run all scheduled or customised programmes for your team at your premises.

- Up-to-date clinical skills training
- Physical examination skills
- Cardiac and medical programmes
- Mandatory training
- Surgical and peri-operative programmes
- Unscheduled and emergency care
- Team development

We call this **M&K Onsite**

**mk**  
&  
**onsite**

**M&K Professionals** Developing Professionals

Since 1992

M&K associate trainers remain in clinical practice and are selected from clinical experts who have a proven teaching ability. This ensures that courses provided by M&K are lively, relevant but also professional, up-to-date and consistently extremely well evaluated.

For the latest portfolio of M&K courses please see the M&K brochure or visit [mkupdate.co.uk](http://mkupdate.co.uk)

M&K Update is the leading provider of healthcare courses built over 15 years of experience with an excellent reputation.

“Success through your partnership” achieved with “thinking beyond your expectation”

**M&K**® – Professionals who develop Professionals

#### Your training need

M&K are the UK's leading provider of short clinical courses which are utilised for a variety of reasons such as:

- Individual, team or service development
- Knowledge and skills development for new skills and services
- Recruitment retention and re-training of staff groups
- 'Fire-fighting' responding to service deficiencies
- Notification of Practice (NOP) - NMC requirements
- CPD requirements for continued professional registration
- Healthcare Commission regulation

Customised training for groups is the best option when you require a degree of specification or you need something unique constructing.

#### It could be:

Content of two or more of our existing programmes, e.g. Physical Examination and Heart & Lung Masterclass or Minor Injuries and Minor Illness.

Something highly specialised, specific to your Trust, Hospital or Company.

Whatever your organisation's training need it is likely M&K can offer a solution, do not hesitate in contacting us to discuss your needs.

#### Benefits Include:

Customised courses can be designed to focus specifically on your team or service needs. This route offers total flexibility of when and where the course is delivered and ensures that your budget is focussed directly on training rather than associated staff travel and accommodation costs. Training can be staggered over weeks or months and can dovetail into existing local programmes.

#### What it costs

Please note M&K Onsite is charged per course **not** per attendee and the training is held at your premises.

- With M&K onsite there are no minimum number of candidates.
- There is a maximum number, usually between 16 - 30 depending on the course.
- Onsite fees include all tuition fees, course materials, certificates, our travel and accommodation, course venue is provided by you as the client.
- You may choose to 'sell' excess course capacity to neighbouring organisations.

For a no obligation training proposal, contact M&K:
